

# SPECTIS GFRG, GFRC AND POLYURETHANE PRODUCTS

(GFRG-Glass Fibre Reinforced Gypsum / GFRC-Glass Fibre Reinforced Concrete)

Spectis Moulders Inc. manufactures architectural detailing from high density polyurethane, GFRG, and GFRC. Whether major restoration or new construction, with these materials it is possible to create timeless beauty of the past and present, for individual homes, offices and custom projects. Having supplied materials for construction sites such as Yale University, Disney World in Orlando, Wisconsin Electric Building in Milwaukee, Caesar's Casinos, and McPhillips Street Station Casino in Winnipeg, we can assure you Spectis will provide all your architectural detailing needs. For more information, please contact your Spectis Customer Service Representative.

Some examples of GFRG mouldings, medallions, brackets & decorative accents located in McPhillips Street Station Casino, Winnipeg, Manitoba, Canada. Center right medallion is 26 feet in diameter.
