

SPECTIS MOULDERS

Manufacturer of Polyurethane Millwork

Customer Service—We create a hassle free customer experience with our products. Feel connected with the place you are doing business with. We make things easier for you!

Shorter lead times—When products have less distance to travel to get to our distributors or intended retailers, they can be delivered more quickly to the customer—accelerating the sales process, enabling more agile forecast responses, and getting money in your pocket sooner. Manufacturing in Canada makes us meet your nearly instantaneous demands.

Replica of Thomas Jefferson Home

High standard of safety and quality—all materials being used in our facility adhere to safety and quality standards, as well—helping you make sure that you have the best polyurethane millwork products in your hands.

No inventory—everything is made to order in our factory.

Made in Canada—with raw materials from USA and Canada only, quality that is of the highest standard in the industry.

Environmentally friendly—Cutting down on transit saves energy, making our manufacturing plant a much eco-friendlier option. Ocean shipping is one of the biggest emitters of greenhouse gases, and by cutting down on international shipping, our company will produce a much smaller carbon footprint. We place great emphasis on individual craftsmanship and local manufacturing that lead to greater environmental sustainability.
