

Specialty Hardware

Check out the versatility of Spectis Moulders! We have always specialized in custom products and that also includes hardware.

Did you know the stair rail can be identical to the railing on the rest of the balustrade? Simply order our custom handrail brackets for a cohesive look on your project!

Made of stainless steel, these brackets have a 1/2" rod and 1/4" plates. Each bracket has counter-sunk holes and comes with the necessary fasteners for each application.
