

# SPECTIS MOULDERS

## The Front Entrance

Like the opening sentence of a paragraph or the first impression at a meeting, the front entrance of a home makes a statement.

**Spectis Moulders** has many standard options of **crossheads**, **pilasters** and **pediments** to fit any style, plus the option of *creating the custom size or design* not seen before.

Our selection of **crossheads** is on page 112 - 115 of our catalogue and the option of custom **headers** can be made from many of our standard mouldings. Remember to measure headers using the breastboard width, not the overall width.

**Keystones** can crown certain headers, ranging from scrolls to flat profiles on page 125 and 126. Keystones are also a wonderful way to hide the seam of oversized headers above a garage door or over multiple windows.

Our standard **pilasters** come in a wide range of styles: *fluted, single panel, double panel* and a *smooth flat panel*, all grounded with a base plinth. They are available in many widths and heights. Pilasters need not be large to add a **big** impact to a front entrance.

**Pediments** add a grand statement to any entrance. At **Spectis Moulders** we have many different pediment styles to choose from: *acorn, peaked, ramshead, sunbursts* or *custom arches with flankers*.

**Columns**, decorative or structural, are also available through **Spectis Moulders**. Round columns are moulded with our standard profiles being *smooth tapered, fluted tapered, fluted or smooth straight* and also a *rope* design. Check out page 104 and 105 in our catalogue for available column heights and diameters. Dress up these columns with **caps** and **bases** found on page 106 and 107.

Square **Box Columns** can also be ordered as structural or decorative wraps. Choose from smooth, recessed or fluted box columns. The decorative finishing touches of caps, bases and neck trims are included in the price of the box columns.

All of our columns can be shipped *split* ready to wrap structural posts, or they can be shipped complete. Also, as always, if a custom item is required, give us a call or email us. We would be happy to prepare a **quote** for you. If you would like a **catalogue** sent to your office or customer, see the contact

**Contact us for all your customization requests at 1-800-685-9981.**
